To Whom It May Concern;

Bruce M. Ciarlariello, P.E. was the project manager for MEP&FP engineering projects for Classic Residence Assisted Living and Independent Living properties while employed by SGM Engineering, Inc. During this time, Mr. Ciarlariello provided detailed responses to project inquiries and was available to accommodate site visits, conference calls and design coordination efforts.

Following Bruce's departure from SGM Engineering to become a full-time business owner of BMC Consulting, and based on his previous performance, Classic Residence has retained Bruce and his staff as the MEP&FP engineers for additional renovation projects. Bruce and his staff have continued to be responsive to client-related inquiries and to exemplify professionalism in their approach and guidance.

In addition to the responsiveness of BMC Consulting, their understanding of building construction and code knowledge has been invaluable to Classic Residence in delivering successful projects. As the Director of Projects for Classic Residence, I highly recommend BMC Consulting for MEP&FP projects.

Sincerely,

A handwritten signature in blue ink that reads "Steve Mendelsohn".

Steve Mendelsohn
Director of Projects
Classic Residence
